**Featured Speakers:**

Loretta Bacchiocchi, NP has been passionately promoting CREATION Health for over 10 years in seminars and classrooms all over the world working closely with the Florida Hospital Mission development team. She presented the CREATION Health model at the Oregon Camp meeting last July where it was enthusiastically received. Loretta has also taught for 11 years in the nursing program at Florida Hospital College of Health Sciences. She is currently an adjunct faculty at Adventist University. Loretta brings all her experience to help inspire and motivate everyone to live life to the fullest as God intended.

Rachel Griebel, PT is a perfectly imperfect wife married to one perfectly imperfect man, mom to 3 fantastically fun, beautiful girls. A woman seeking God. A woman who finds Him in running. Being still, while moving forward. Just a girl at heart, making her way through this amazing life. She loves playing at the beach or in the mountains, cooking, reading, and helping others find renewal through physical therapy. She loves deeply and has a heart for women and desires for each woman of God to stand in their fullest expression of God's love, being blessed and blessing others. She lives with her family near Corvallis OR.

Paul Opp is the President and founder of People of Peru Project. Paul graduated from Walla Walla College with a Bachelor of Science degree in Youth Services Leadership. He served as a youth pastor and taught classes from religion to health education. He was a school administrator in a variety of educational settings, ranging from private Christian schools to the Florida, juvenile prison system. For fifteen years Paul was self-employed, owning several different businesses. From March of 2000 until December of 2003, Paul continued to operate his family business and began the foundational work of the People of Peru Project. In January of 2004, he shut the doors of the business and entered into this project on a full-time basis.

Sandra Opp is the secretary/treasurer of People of Peru Project. She has been enthusiastically “on board” since the very beginning. Sandi has a heart for people in need and is compelled to feed anyone that is hungry. She graduated from college with a degree in food service, nutrition and bakery management and has worked in the food service industry in several different educational and medical institutions. Sandi has also been employed as an office manager and bookkeeper for several businesses. She is an avid student of health education and has amassed a treasury of information that is invaluable for the people in Peru who know so little about health-related issues. Paul and Sandi have a home in Caldwell, Idaho.

Mike Breakie Vice President of the US board, from Post Falls, Idaho joined the People of Peru Project board in August of 2009. Mike has worked in various capacities in the building trades and has managed multi-million dollar projects for Commercial developers and individuals in the private sector. Mike currently owns a home security and management company for upper end homes that are listed on the Real Estate market and continues to work in the construction industry with his own company. Mike and wife Tawnya have been involved, from the heart, since their first visit to Iquitos in December of 2007. Their personal interest in some specific kids and love for suffering people, in general, make them a good fit and their involvement has been very much appreciated as board members and friends.

Tawnya Breakie has been an avid supporter and friend of People of Peru Project since her first trip to Iquitos. She has the heart of a mother and deep compassion for those who are suffering. We appreciate so much her insights and sensitivity during the tough discussions and rely on the wisdom that life’s experiences has granted her. Tawnya is the mother of 3 sons and owns and operates her own Massage Therapy business.

Dr. Johanna White is a general dentist who practices in Portland, Oregon, and a 1989 graduate of Loma Linda University School of Dentistry. She fell in love with both the people and the project on her first trip to Peru in 2005. Her goal to return annually has resulted in eight trips over 10 years. Ask her about the work People of Peru Project does in Iquitos...if you have an hour or so, to hear about it.

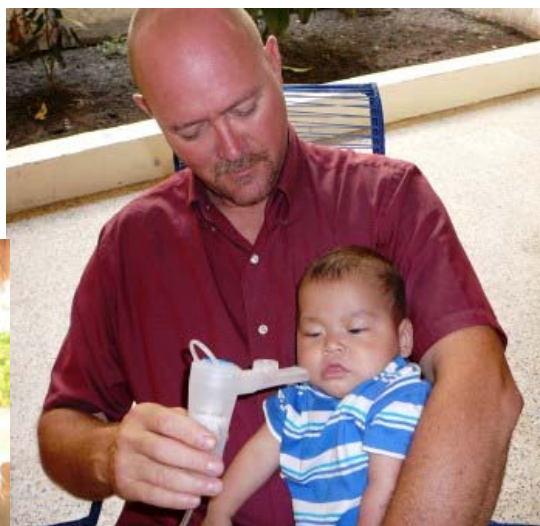

Dr. Dwight Winslow is a native of British Columbia Canada and grew up in the Walla Walla area and attended Walla Walla College. He followed his passion and graduated from Loma Linda University with a degree in Medicine and is a Board Certified Internist. In 2010 he retired from California State government where he was the Chief Executive Medical Officer for the State of California prison system. Dr. Winslow has been a friend of the Opp family since college days and is currently involved in volunteer work with religious and health care nonprofit organizations. He makes his home with his wife in coastal northwest California.

## SEVENTH-DAY ADVENTISTS BELIEVE:

As a people we hold the Bible in supreme regard as the revealer of God's truth to guide us to salvation. Our love and devotion is rooted supremely in Christ who we worship as our Savior, Creator, Lord and King.

We believe that forgiveness, healing and eternal life are offered freely to all on the basis of what Jesus has already accomplished for us at the cross, and continues to do as He ministers on our behalf in the heavenly sanctuary above. God's mercy and grace are infinite and are received by faith, to prepare a people for Jesus' second coming.

The "New Covenant" provides not only forgiveness for sin, but also God's promise to write His law on our hearts so that our greatest joy will be to do His will. We keep His commandments, not in order to be saved, but because He has already encircled us in His saving arms. His law includes also the fourth commandment Sabbath which invites us to spend a special time of fellowship with God on the seventh day.

## **People of Peru Project Announcement**

The People of Peru Project provides aid to the region of Peru at the headwaters of the Amazon River. This is the largest city on earth that has no roads leading to it. You must travel by boat or plane to reach Iquitos.

The 650,000 people that make up this jungle city, are plagued by poverty, disease, parasites, malnutrition, rampant tooth decay and premature death. Often the children suffer the most...and many are left alone to survive on the streets or in the surrounding jungle with no parent or family unit to provide care.

**Sabbath August 20 at 11:00 am Paul Opp, founder director of People of Peru Project will share some amazing stories and shocking pictures, of what God can do, using ordinary people that say, "I will."**

*Join us for an inspiring time together  
and don't miss this opportunity to bring a friend.*
